# Android Wireless Setting

On your control panel, look for the Wi-Fi symbol in the top left-hand corner of the screen. Tap on the symbol.

After you have tapped on the symbol, you should see a list of wireless connection options. Look for the one labeled **BSUWireless**. Tap on BSUWireless.

When you tap on BSUWireless, it should bring up a screen that displays **EAP Method.** In the field that is title Identity, you will insert your username, which is the first portion of your student email. In the password field, you will use the same password as you do for myBSU. Below these fields, you will see **CA Certificate.** You will select the option that says **Don't Validate**. Make sure that **Auto Reconnect** is turn **on**. Once you have finished these steps, tap connect.
