

Windows Wireless Settings

When logging into your Windows device, look in the bottom right-hand corner for the globe with an error symbol on it. Click on the symbol.

Once you have clicked on the symbol, locate the WiFi named **BSUWireless**. Click on the name.

Once you click on the name, fill in the designated area with your username, which is the beginning portion of your student email, and your password, which is the same password you use to sign into your myBSU.

Once you have filled in with your credentials, click OK.
