- IV. Old Business
Steve Bourne explained that little attention was given to online students, and Mike Lilly noted little attention was given to retention. Geoff Hunter noted that we should build enrollment online and through articulation, use our athletic programs to attract students, and use our metro rate to recruit more local students and support diversity. Both Steve Bourne and Darrel Malamisura explained that we could use technology more effectively in order to communicate with potential students.
- V. Committee Reports
Mike Lilly announced the Curriculum Committee would meet the Wednesday after Thanksgiving to review proposals. Dr. Mirsky said that the Board of Governors met for grant provided training sessions and would be revising the processes for training new members. The procedures for harassment complaints and a modified hiring policy will be presented to the Board of Governors.
- VI. New Business
Senate will meet Dec. 12 for a lunch session to review strategies. The concern of filling positions for those retiring needs to be discussed.

Steve Bourne moved for adjournment and Darrel Thompson seconded the motion.
