

Artificial Intelligence Taskforce September 11, 2023—Boyd Conference Room

Attendees:

- Mark Starcher
 - Jerry Wood
 - Dr. Joe Beckett
 - Jeff Yeager
 - Kristin Hicks
 - Lauren Crews
 - Adrian Ayersman*
 - Michelle Taylor*
-
- Mark Starcher presented “AI Evolution: From ChatGPT to Llama2 LLM Models and Beyond” → Click [HERE](#) to view the presentation
 - Roundtable discussions were held about how to develop a “workshop” for professors; perhaps a series of workshops could be scheduled
 - Kristin Hicks recommends a hands-on workshop for all faculty, with specialized sessions developed for each school individually
 - Michelle Taylor suggests that her students in MGMT 488 & BUSN 490 could benefit from knowing how AI could assist in marketing for business. She mentioned that this might should be a module or course component/perhaps a strategy course. —Mark Starcher is to discuss this with Karen Grogan, Dean of W. Paul Cole Jr. Business College
 - Kristin Hicks suggests modifying the honor code for all schools; specialized tailoring of codes for each school specifically—perhaps even each course should have its own code (depending on the course and content)
 - Mark Starcher re-introduced poe.com as a “hub” for AI models
 - Starcher also suggested that some kind of AI software may be needed for all BSU Faculty

Next meeting topics for discussion and action

- President Capehart wishes to address
 - policy creation/modification
 - school-specific trainings

Meeting was adjourned without a new date being set.

Meeting notes taken by Lauren Crews, Chief Development Officer.
