

Kellie Williams

Constant

You've been a constant in my life  
A Constance on my mind  
Eclipse me at my heart  
Had me at the start  
You come around like the moon  
Then go away too soon  
Keeping me up at night  
Oh what a sight  
They say you've got a dark side  
Something you've never tried to hide  
I see you with all your craters  
And how you still proceed despite the haters  
As you are there  
And I am here  
Communication is what is bare  
While the whole world can see who you are  
I feel like I'm locked behind bars

Locked behind bars  
What a life where you feel you can't get close to mars  
Solidarity  
Alone  
At time it hard to pick up the phone  
With only one call a day  
And all the importance I need to relay  
The warden is mind  
It has a way of keeping me in a bind  
Like shackles  
Those constant cackles  
I'm either this or that  
But it's a problem when I fight back  
Life without parole  
Is it too late to save my soul  
I'm trying to break free  
But the warden keeps on catching up to me  
This is the life that no one in the world takes the time to see
